Acronyms and Glossary

A

Accounts Payable. A VPF Business Unit responsible for paying the Institute's bills for goods and services. AP's primary role is to make payments accurately to suppliers and reimbursements to employees and students on a timely basis (e.g., supplier invoices, honorariums).

B

Budget & Financial Analysis (B&FA) is a VPF Business Unit that helps facilitate portions of the year-end closing process. The primary work of the Budget and Financial Analysis (B&FA) team is to administer the annual budget process for the Institute and to provide financial information and analysis to MIT’s senior leadership. See https://vpf.mit.edu/budget-management for more information about B&FA.

Budget Transaction Request (BTR) is a process administered by the B&FA team designed to allow DLCs to systematically request a transfer of General Institute Budget (GIB) between cost centers, or to draft funds from internal orders in support of GIB cost centers. BTRs can be initiated by copying and pasting the link below into your web browser: https://nimbus-1.mit.edu/vpfforms/BudgetTransactionRequest.jsp

C

Cost Center. Most auxiliary, administrative and instructional activities are in cost centers. Funding is primarily through general funds or self-funding for revenue-producing auxiliaries. The cost center number range is 1330000–1999999.

Cost Object. A seven-digit number used to categorize the costs and revenues associated with a particular project or activity at MIT. The terms cost object and cost collector are used interchangeably. Each cost object number is unique and assigned to only one company code. The three types of cost objects in SAP are cost centers, internal orders, and WBS elements.

D

DLC. An MIT Department, Lab, or Center.
**Detail Transaction Report (DTR).** A monthly accounting statement used to report monthly transactions to users. Items on this report are reconciled monthly as part of the Financial Review and Control (FRC) month end process.

**F**

**Financial Accounting and Reporting (FAR).** A VPF Business Unit charged with providing broad-based accounting and financial reporting services to the MIT community.

**Financial Statements.** The financial statements summarize the finances of MIT for the fiscal year (July to June).

**Fiscal Year (FY).** The 12 months between one annual settlement of financial accounts and the next; a term used for budgeting and financial reporting. MIT’s fiscal year runs from July 1 through June 30.

**Fiscal Year-End Closing Schedule.** A document which provides dates, times, and cutoffs, of specific year-end closing activities. Also referred to as the Year-End Schedule or Closing Schedule.

**Fiscal Year-End Process.** The process we follow at MIT to close the fiscal year, ensure the audited financial statements are in compliance with Generally Accepted Accounting Principles (GAAP), ensure that relevant budget variances are appropriately addressed, and produce the Institute’s Treasurer’s Report.

**G**

**Generally Accepted Accounting Principles (GAAP).** GAAP is a set of rules that encompass the details, complexities, and legalities of business and corporate accounting. The Financial Accounting Standards Board (FASB) uses GAAP as the foundation for its comprehensive set of approved accounting methods and practices.

**General Ledger Account (G/L).** In SAP, a six-digit number identifying a particular classification of expenses or revenue. Also referred to as a G/L account or cost element.

**General Institute Budget (GIB).** Unrestricted resources that can be used for any Institute purpose. The largest sources are tuition net of financial aid, unrestricted investment support, and F&A cost recovery.
I

Internal Order. These cost objects are for discretionary or instructional activities. Funding is from gifts, investment income, Industrial Liaison Program (ILP) fees or miscellaneous income. Funds are used for non-research activities, fellowships, and discretionary purposes. They may or may not have an end date, at the DLC discretion. The Internal Order – Fund number range is 2000000–4479999.

N

NIMBUS Budget System. MIT’s web-based system for creating, submitting, maintaining, updating, and closing out budgets. NIMBUS is the system of record for budgets across MIT.

O

Office of the Vice President for Finance (VPF)

- VPF works to advance MIT’s mission by supporting thoughtful stewardship and effective deployment of the Institute’s financial resources.
- An administrative unit of the Office of the Executive Vice President and Treasurer, VPF oversees the operations needed to pay MIT’s employees and enable them to purchase goods and services that support world-class education and research.
- It also helps the MIT community make thoughtful decisions about allocating resources by collecting and reporting financial data and coordinating the Institute’s annual budget process.

P

Period 13. A period of approximately 5 business days, commencing on the first business day in July, when DLCs review preliminary financial results and make final entries to close the fiscal year. (Sponsored accounts are unable to use this period.)

ProCard Verifier. A ProCard Verifier is responsible for confirming that the charges to your cardholder’s card are legitimate. The ProCard Verifier is responsible for checking that the purchase:

- Is not a restricted item and does not fall on the non-allowed items list or the hazardous items list
- Is appropriate and MIT business-related
- Posts to the correct G/L and cost object
Procurement Operations. A VPF Business Unit that helps the MIT community buy the goods and services it needs to conduct the Institute’s business and serves as the community’s partner in the actual purchasing process.

Procurement Card (ProCard, Pcard). A purchasing instrument issued to MIT employees for small-dollar purchases (<$3,000).

Research Administration Services (RAS). RAS’s purpose is to:

- Assist the MIT research community in securing sponsored research funding that is consistent with the mission and goals of the Institute.
- Provide information and assistance in managing sponsored research funding.
- Provide the proper stewardship of research funds that satisfies both the sponsor and the Institute.
- Advocate for MIT research to outside entities.
- Make the administration of research funds as easy and efficient as possible.

Research Assistant (RA). A member of a research group in a laboratory or on a project, whose principal duty is to contribute, under supervision, to a program of departmental or interdepartmental research.

The Summary Statement is a financial report in SAP that:

- Summarizes expenses and revenues at the G/L account level
- Displays information for the current month and the FY to date for all cost objects
- Displays cumulative transactions for funds and sponsored projects that extend over multiple fiscal years

You can use the Summary Statement to:

- View authorized totals, Institute budget, department budget
- Compare budget to actual expenses and revenues
- View expended, unexpended, committed, and uncommitted amounts
- Drill down to find details of specific G/Ls in the Detail Transaction Report (DTR)
**Sweep Process.** Charges that are not processed within 21 days will sweep, meaning they will be posted to the default cost object provided at card opening. You will receive notifications 4, 3, and 2 days before the charge sweeps, as well as a notice that the charge has swept. Swept charges will need to be posted to the appropriate G/L and cost object using a journal voucher, including an explanation of why the charge swept.

**T**

**Treasurer’s Report.** A public document that officially states MIT’s financial position at the close of the fiscal year.

**V**

**Variances.** The difference between the budget and actual expenses and/or revenues.

**W**

**Work Breakdown Structure (WBS) element.** A cost object in SAP that collects expenses and revenues related to sponsored projects. WBS elements are both research and fund accounts.
